1 Introduction

This instruction manual explains the user on the procedure to generate MPLS license for OS6860N from the Licensing Data Solution web portal.

2 Steps for License Generation

MPLS License for OS6860N can be generated by providing the Customer Number and Order Number.

2.1 Using Customer Number and Order Number

To generate license, follow the below steps:

1. Navigate to Licensing portal: <https://lds.al-enterprise.com/>
2. Click the hyperlinked [MPLS License Generation](#) as in the following page:

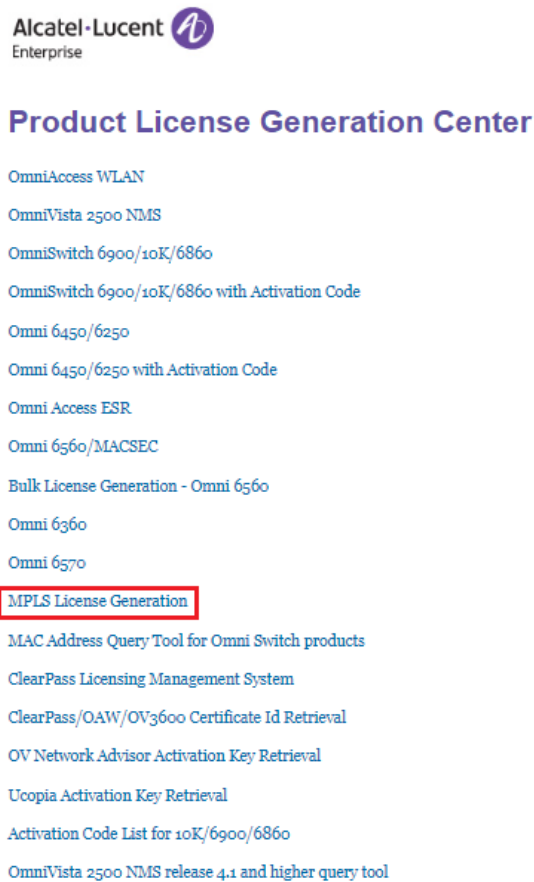

Figure 1 : LDS Home Page

3. The following page appears:

LICENSE GENERATION - MPLS

Customer Number:* 

Order Number:* 

Customer Email: 

[User Manual for MPLS License Generation](#)

Figure 2 : License Generation Page - MPLS

4. Enter 'Customer Number' and 'Order Number' for the product (OS6860N-MPLS-1/OS6860N-MPLS-4) that has been ordered and click on 'Submit'.

LICENSE GENERATION - MPLS

Customer Number:* 

Order Number:* 

Customer Email: 

[User Manual for MPLS License Generation](#)

Figure 3 : License Generation Page – MPLS

5. The following page appears where user will be able to find the licenses ordered in the drop down under 'License Type' field as highlighted.

LICENSE GENERATION - MPLS

A valid License Server Switch Serial Number is required to generate the MPLS License Key.
Please input the quantity for specific part chosen within the ordered limit.

Customer Number:*	<input type="text" value="91234"/>
Order Number:*	<input type="text" value="5643234"/>
License Type:*	<input type="text" value="--select--"/>
Description:	<input type="text" value="Please choose the License Type from dropdown"/>
Quantity:*	<input type="text"/>
Switch Serial Number:*	<input type="text"/>

[User Manual for MPLS License Generation](#)

Figure 7 : License Generation Page - MPLS

Note:

For generation of MPLS license,

- It's mandate to provide the quantity for which the user wants to generate the MPLS license within the ordered limit.
 - For example, if the user has ordered the license part : OS6860N-MPLS-1 for the quantity : 35, then they can input the quantity for which they need the license which is less than 35 i.e, ordered limit. In the Figure 7, the quantity been input is 10 for license generation out of 35 quantity ordered. User will still have the option to generate remaining 25 quantity of licenses whenever they need them later for the relative License Server.
 - Serial Number is mandate for the user to provide after providing quantity. The Serial Number that needs to be input here is the License Server Switch Serial Number.
7. After clicking on '**Generate License**', the license gets generated for the Quantity and Switch Serial Number input by the user as in the following page where and they will be able to find the '**Download License**' Option.

LICENSE GENERATION - MPLS

A valid License Server Switch Serial Number is required to generate the MPLS License Key.
Please input the quantity for specific part chosen within the ordered limit.

License successfully generated for the part number: OS6860N-MPLS-1
Available license count for the Part number: OS6860N-MPLS-1 is: 25

Customer Number:* ?	<input type="text" value="91234"/>
Order Number:* ?	<input type="text" value="5643234"/>
License Type:* ?	<input type="text" value="OS6860N-MPLS-1"/>
Description: ?	<input type="text" value="Please choose the License Type from dropdown"/>
Quantity:* ?	<input type="text" value="10"/>
Switch Serial Number:* ?	<input type="text" value="BKL12345"/>

Dear Customer,

Greetings!

Please find the attached license key for

Customer ID: 91234

Order Number: 5643234

Part Number: OS6860N-MPLS-1

Thank you!

Regards,
ALE License Support Group,
Alcatel-Lucent Enterprise

This is a system generated email. Please **DO NOT REPLY TO THIS MAIL**.

Note: Above is the screenshot of the sample mail in the Figure 17 been received with the generated license key to the email id input by the user

3 Few Error Message and Their Interpretation

User sometimes may encounter some unexpected error condition due to invalid data, wrong combination of data, data unavailability etc. Here are some common error conditions are discussed along with their meaning.

1. If license quantity for the part has been exhausted for the given Customer Number and Order Number:

If user generates last quantity of license for the part, then customer will encounter below page once the license has been generated.

The screenshot shows the Alcatel-Lucent Enterprise MPLS License Generation interface. At the top left is the Alcatel-Lucent Enterprise logo. The main heading is "LICENSE GENERATION - MPLS". Below it, a blue instruction states: "A valid License Server Switch Serial Number is required to generate the MPLS License Key. Please input the quantity for specific part chosen within the ordered limit." A red-bordered box contains a green success message: "License successfully sent to your email address" and a red warning: "All Licenses have been consumed for the Part number: OS6860N-MPLS-1". Below this, there are input fields for "Customer Number:" (91234), "Order Number:" (5643234), "License Type:" (OS6860N-MPLS-1), "Description:" (Please choose the License Type from dropdown), "Quantity:" (10), and "Switch Serial Number:" (A1234567). At the bottom, there are buttons for "Home", "Clear", "Generate License", "Download History", and "Download License".

[User Manual for MPLS License Generation](#)

Figure 18 : License Generation Page - MPLS

2. When all the licenses related to Order Number and Customer Number has been generated:

When all the licenses ordered have been generated for the specified Customer Number and Order Number, then user will encounter the below error page.

Alcatel-Lucent
Enterprise

LICENSE GENERATION - MPLS

All License consumed for the Customer Number and Order Number

Customer Number:*

Order Number:*

Customer Email:
